IPhone poetry

IPhone poetry

IPhone poetry is fun and fine
The tricky part to retain a rhyme
And as a Notes sentence is so short
Use small words to avoid abort
You can be smart and use landscape
Or change the font down to eight
But this defeats the narrow view
Of portrait verse simple to undo
And what is simple to type for text
Is not an art form to reflect?
So if you long for words that are greater
You need an iPad or pen and paper
